10/14/2009 10:47: 49	1	1	1	1	1	1	1	Need time to check programs on my kiln for different glaze results. Need time to find resources already in my room that back up my lessons. Need time to learn how to use my airbrush Need time to set up all my weaving looms for use by kids Need time research, purchase and learn about the latest art mediums--and make teacher exemplars. Really--I am sincere about this--I GET how computers and all the wonderful programs are here to stay--but I just don't believe the need/desire to create art works will ever go away. I feel disrespected as a teacher of worth during these sessions.

10/21/2009 8:27:07	1	4	1	1	2	4	1	white board resources & uses time to research (& review) saving audio & video documents with out streaming live- also how best to incorporate for classroom use. time to find on line resources / ideas that are specific to MY subject area Review- refresh the information we got from Gina's session. Maybe actually put 1 of the ideas to use as an individual. You can tell me how to do it- but I have to actually do it to know it.
10/21/2009 8:35:59	5	5	5	5	1	1	4	we need to focus on staff use of technology projected for the class- we only have so many labs, but LCD projectors and smart boards are for the whole class.
10/22/2009 16:46:26	5	3	3	2	4	2	4	How to get my website and/or blog up and running. I guess I just need to have someone sit down with me, make recommendations of what electronic face might best meet my needs (classroom, communication), and get me started. If I don't use it, I loose it - and every time I learn something cool (which is almost always) I don't have a structure in place where I can apply it, so then its gone. My request is less broad exposure - more fundamental support to get up and running (well, walking...slowly).
